Seamless Flooring Systems Since 1989

Since 1989, A&I Coatings has been developing and manufacturing high-performance Australian-made coating systems, backed by ISO 9001 quality certification. Our extensive range of epoxy, polyurethane, and polyurethane cement flooring systems is designed to deliver long-term durability, safety, and performance across industrial, commercial, and public environments.

From warehouses and manufacturing facilities to food processing plants, workshops, and commercial spaces, A&I flooring systems provide seamless, hard-wearing surfaces with excellent chemical resistance, abrasion protection, and slip-resistant options. Designed for reliability and easy maintenance, our flooring solutions help protect assets, enhance safety, and maintain a professional finish for years to come.

More than just a manufacturer, A&I works closely with builders, architects, specifiers, and contractors, providing technical expertise, specification support, and on-site guidance to ensure every project achieves the best possible outcome.
