

V470 HS (High Solids)

Direct to Metal Coatings

Vitrethane 470 HS is a versatile Polyurethane coating used in direct to metal applications designed to provide the same properties and characteristics of traditional primer/topcoat systems, but in a single coat. Vitrethane 470 HS has excellent adhesion and corrosion resistance properties on ferrous and non-ferrous metals. This coating is an ideal choice where convenience, basic corrosion resistance and a good finish is required.

Typical industries using V470 HS:

- ⊕ Mining Infrastructure
- ⊕ Steel Fabrication
- ⊕ Plant & Equipment Repairs and Overhauls
- ⊕ Mining Machinery
- ⊕ Agricultural Equipment
- ⊕ Earthmoving Machinery
- ⊕ Truck & Trailer Bodies
- ⊕ Buckets & Attachments
- ⊕ Mining Trays

Features and Benefits

High build
finish

Faster throughput
times

Straight forward
and easy to use

Excellent filling
properties

Can be mixed to
almost 10,000 colours
including AS2700 and
RAL colours

High Gloss &
Satin finishes
